As it assists in interpreting the love song of the young miss as she carols to her adored one.

The sweet, sympathetic tones of the Weber piano have never been equaled by any other make and they never will. The genius that created them has passed away, but the monument he erected will live forever and as long as musical tones are appreciated, so long will this piano be the favorite of the Artist, of the Student and of the People.

By Telegram to the Times.

VISALIA, Sept. 23.—[By the Associated

Press.] Detective Thacker and

posse and Frank Burke, with his scouts

and Indian trailers, returned to the city

today. They said there were too many

men in the mountains to do good work,

and the tracks on the trails misled the

workers. No trace whatever has been

found of Evans and Sontag, and Frank

Burke is of the opinion that the bandits

have left the hills. A canvass of offi-

cers was held today in this city to de-

termine on future plans of action. Burke

and party leave again for the hills tomorrow.

Al Witly, who was shot in the neck by

the bandits at Young's house, states

that Burke did shoot at Evans on that

occasion, and that it was this that saved

his (Witly's) life.

FRUIT SHIPMENTS.

Figures of the Season's Business Given by

the Southern Pacific.

SAN FRANCISCO, Sept. 23.—[By the

Associated Press.] Figures were ob-

tained today from the traffic officials of

the Southern Pacific Company repre-

senting the exact amount of the ship-

ment of California green fruit this sea-

son. Two thousand nine hundred and

sixty carloads of fruit had been sent

East up to last Saturday night, and offi-

cialists state that fully 700 more will

go in the next thirty days, which will

aggregate \$8,840,000 pounds of

fruit. The trains that have climbed

the mountains up to last Sat-

urday night have numbered 872

against 292 for the same period last

year. The railway convicts on these

shipments is \$1.25 per hundred pounds

to Chicago. They derive more than

this sum, as the rate beyond Chicago is

\$1.50 per hundred. The officials state,

however, that the business has not been

a profitable one, owing to the fact that

great quantities of ice were hauled, and

that the peculiar cars used for fruit had

to be brought back empty.

The Pacific Mail steamer San Blas,

due from Panama and way ports, did

not arrive today. It is presumed that

5000 people which gathered at the

Gen. Weaver tonight sent a lengthy

THE METHODISTS.

Third Day of the Southern California Conference.

Another Interesting Talk to Ministers by Bishop Vincent.

What is Required to Fit a Preacher for His Work.

The Anniversary of the Missionary Society—Instructive Addresses by Able Speakers—Epworth League Anniversary.

The Methodist Episcopal Conference of Southern California, in session at San Diego, continued yesterday morning.

The proceedings opened with the usual devotional exercises, Rev. Adam Bland and Bishop Vincent leading in prayer.

The names of Francis M. Larkin, Lewis G. Spring and George W. Wood were called and their characters passed and they were elected to elder's orders.

Charles A. Westerman was continued as a deacon of the second class.

The following visiting brethren were introduced: Rev. D. W. B. Noble of the Presbyterian Church; Rev. W. C. Merrill of the Congregational Church; Rev. Metcalf of the Baptist Church; Rev. W. B. Green of the African M. E. Church.

Dr. Stevenson presented resolutions of respect to the memory of Hon. E. F. Spence.

Dr. Harburt, agent of the Sunday School Union and Tract Society, and Dr. Thompson, agent of the American Bible Society, addressed the conference on the interests they represent.

Rev. T. W. Lincoln was introduced, and the Bishop announced that he was transferred from the California to the Southern California Conference.

Resolutions of sympathy to Dr. Cray, the editor of the California Advocate, in his severe sickness were passed. Dr. Howard, Dr. Cobb and Bishop Vincent spoke appreciatively of Dr. Cray and his work.

Rev. J. A. McMillan was granted a supernumerary relation.

The following are the officers of the conference: Presiding officer, the Bishop; secretary, H. J. Crist; assistant secretary, F. M. Larkin; statistical secretary, J. A. McMillan; assistants, C. J. Miller, F. D. Ashleigh, E. J. Inwood, J. R. Lovejoy; treasurer, T. E. Robinson; assistant, W. B. Humber; railway secretary, W. A. Wright.

THE BISHOP'S MORNING TALK.

Bishop Vincent delivered the second of his talks to ministers yesterday morning, taking for his subject "Wisdom." He touched upon wisdom in business affairs, but dwelt more especially on the intellectual side. God will not give truth to a minister who is too lazy to investigate for himself. Acquaint yourself with all the literature of the day. To keep abreast of the times we must study and think. The mission of the schools and colleges is not to store the mind with facts, but to develop the power to think. Intellectual discipline is the habit of attention. To hold the mind to a subject for five minutes is an achievement. But the mind can be so disciplined that it can concentrate on the same line of thought for hours. Have your hours for study, for thought. Acquire the habit of attention. Study subjects, better than direct preparation for a sermon. What we need is reserved power—power that we can draw upon at will. Think, think, think; read, think and think. Seek spiritual illumination. Jesus said: "Lo, I am with you always." Oh, that it might be said of us as a little girl said of her minister: "Mamma, it seems as if God was talking." Intellectual power is a help to the highest spiritual attainments.

THURSDAY'S ANNIVERSARIES.

The anniversary of the Missionary Society was held from 2 to 8:30 p.m. Thursday, J. M. Phelps spoke on "The Missionary Idea." Said the speaker: "Christianity aims at the conversion of the world. In this respect it stands by itself. It claimed and does claim that it is destined to fill the world. The spirit of Christianity is a missionary spirit. It proposes to conquer the world." F. M. Larkin spoke on "The Why of Mission." He considered some of the unreasonable reasons offered, and then called attention to the reasonable reasons.

From 8:30 to 5:30 p.m. was held the anniversary of the Sabbath Union. Dr. Harburt of New York was the first speaker. He said: "We do not advocate the old Jewish Sabbath or the European Sabbath, but the American Sabbath, the Christian Sabbath, the Sabbath that said Jesus is the savior for man, for man's good; a Sabbath that will lift man up; a day in which man may be relieved from the care and perplexities of life; a day in which the better part of man's nature may be lifted up and administered to; a day in which man may be brought into contact with different things. If the church did nothing more than to lead a man to clean up and dress up on Sunday it would offer the greatest boon to the working man."

Dr. F. B. Bovard of San Francisco showed the influence of Sabbath desecration upon nations.

Dr. Thompson, agent of the union, showed the importance of the work, the interest shown in it by all the people and the progress made. He showed the necessity of a day of rest for the workingman—a law of vitality.

In the evening occurred the anniversary of the Epworth League. The large audience was highly favored by being privileged to listen to Dr. J. L. Harburt of New York, for three years general secretary of the league. He said that this is preeminently the age of the young people. Young people stand in a position of influence and power such as they never occupied before. In business and commercial life, in literature and science, as editors, teachers and college presidents. The church of these times must look after the young. He showed how grandly the Epworth League had met the long-felt want and received the earnest support of the young people of the church. Over 8700 chapters are enrolled at the general office.

Dr. Harburt is a fine platform speaker, and his address was well calculated to encourage and enthrall.

To eradicate the poisons which produce fever and ague, take Ayer's Ague Cure. It cures without leaving any injurious effect upon the system, and is the only medicine in existence which may be considered an absolute antidote for malaria.

Yet many neglect to wear them through false pride, which causes eye strain and headache. It is all-important to have a perfect fit if good results are expected. Captured the Prize.

The committee appointed to decide as to the merits of entertainments proposed for the fair met Wednesday. There were twenty contestants for the prize offered for the best suggestion, many betraying a high degree of merit and some shooting wide of the mark. The judges finally simmered the matter down to four meritorious suggestions and had some difficulty in deciding, but at length awarded the prize of \$10 to Miss Annie M. Pittenger of Ventura.

Miss Pittenger arrived in the city the last day of the limit set. She heard incidentally of this contest, set her wits to work and that very day formulated so clever an outline of novel entertainments as to win the prize over all competitors. She is a daughter of Rev. William Pittenger of Ventura and a graduate of Bordentown (N. J.) Female College. As she is one of the most popular young ladies in Ventura, her success will give great satisfaction to a host of friends.

Now Immeasurably Augmented by the Glimmering Masterpiece of

SOLOMON, HIS TEMPLE,

AND THE QUEEN OF SHEBA.

Designed, painted and constructed by John Rettig, Esq., creator of the world-famed spectacle of "The Fall of Babylon," "Home Under Nero," "Montezuma," and "The Bondage in Egypt." Minutely accurate in biblical reproduction, faithful in scenic delineations, correct in costumes and appointments, and enchanting in grand spectacular effects. The City of David, Convocation of the People, the Walls and Tower of Jerusalem, Palace and Court of King Solomon's Temple, Sacred Ark of the Covenant, Solomon's 700 Wives, the Judgment of Solomon, Arrival of the Queen of Sheba, Procession of War Chariots, Ravishing and Enchanting Ballet, Grand Processional Parade. A marked and enviable distinction between the transcendently impressive and eminently moral, historical and mind-elevating spectacle and the various spectacular productions that have from time to time invited public attention, is the entire absence in this of sensual, libidinous and lascivious presentations.

113-115 North Spring St.

TONIGHT as you pass along Spring street after 6 o'clock you will notice this is the only dry goods house in all this city where the doors are closed and the lights are out; the clerks will be at home eating a good warm dinner and with three hours extra rest before them. The clerks in the other houses will be standing behind the counters. In one or two places you may see a few customers for about an hour, and all the other clerks are idling the time away for a little more gain for the managers. We manage our own business and come in direct contact with all the employees, and we know from experience where leniency is shown better work is given. We shall never go back to the old style of opening up Saturday nights to even up a big loss in trade. On the other hand, since Saturday-night closing the trade has taken a big jump upward; this is very noticeable in the big Dress Goods Department. That wonderful 50c line of over 200 different styles is bringing a big crowd in front of the counters. Fifty-cent dress goods—plenty of them are worth 65c, 75c and 85c; they are put in to make the line more complete and better in every way. Today will be a busy one in our big Cloak Department, and today will be a busy one at the Glove Counters—P. & P. Kid Gloves, \$1, \$1.25, \$1.50, \$1.75 and \$2; Suede and Mousquetaire; the best dollar Biarritz glove you ever saw. All the new shapes in Fall Millinery are now in; our opening occurs next week Thursday, Friday and Saturday; it will be a grand affair. Read Sunday's TIMES for a lot of specials that will draw the crowd; it is becoming well known our special sales have merit in them—nothing but desirable goods will be placed on sale, and every article will be worth nearly double. Put off buying Saturday night and take advantage of a big lot of specials for Monday.

DR. HONG SOI, Physician and Surgeon.

317 South Broadway, Los Angeles, Cal.

DR. HONG SOI has graduated and received his diploma from the medical schools and Universities in Canton, and made his first professional practice for many years in the hospitals of Canton and Hong Kong, China. He is the father of a generation of doctors in his family and has made thorough studies of all diseases of the human body. The doctor has had wide experience as a physician, and during his long stay in Los Angeles has made many valuable contributions to the science of medicine. He has cured many cases of CONSUMPTION, ASTHMA, CATARRH, SCURVY, HEADACHES, INDIGESTION, WAKEFULNESS, NERVOUS TROUBLES, AND ALL DISEASES. The human body is his life, and by his medicine, freshly prepared every day. It would be a benefit to those who are in trouble with sickness to give him a fair trial; his terms are very reasonable. The doctor uses a thousand kinds of medicine which he directly imports from China, and has a large stock of voluntary testimonials from patients who have been cured by the doctor can be shown at his office. Please remember the above address and preserve this advertisement.

To Whom it May Concern: I have been sick for nearly two years by suffering with great pains in the back, head, shoulders and weakness, and unable to get out of bed for some time. About three weeks ago, having called on Dr. Hong Soi for consultation, he pronounced that I was afflicted with kidney disease and lung troubles. He assured me by localizing how and where it pains me, and also explained how and when I could get the best of it. At once I began to try his medicine, which I found it to be a great help to me. I took his medicine for three weeks and now I am well. This is to certify that Dr. Hong Soi has cured me of my sickness, and I am cheerfully recommending him to the public.

MRS. M. J. TEMPLE, 201 N. Spring St., Los Angeles, Cal. Dated March 3, 1892.

To Whom it May Concern: I have been sick with headache, pain in back and shoulders and keen pain in my lungs. I tried two doctors and they said I had the la grippe. Not being satisfied I came to Dr. Hong Soi. He told me where there were my pains, and I took a few doses of his medicine and found it improved me very much, and after taking fifteen doses I find myself strong once more. Yours truly, J. MITCHELL, Los Angeles, March 3, 1892.

For three years I was a sufferer with rheumatism and kidney troubles and was unable to walk. I was very much bloated and suffered excruciating pains. Five doctors have treated me and failed to benefit me. They have given me up as incurable. I was recommended to Dr. Hong Soi for treatment. I am glad I had went to him. He cured me in two weeks time. Dated September 14, 1891. WILLIAM GOBLE, 1015 First street, Oakland House.

Plans in Progress to Make This a Healthy City.

Semi-annual Shoot of Co. B—Want a Local Exhibit at the Agricultural Fair—Other Items of Local Interest—Brevities.

City Councilmen Lukens, Clark and Cox, City Attorney Arthur, Health Officer Sherk and Engineer Mayer assembled Wednesday evening to discuss the sanitary condition of the city and to devise plans for remedying any wrongs that might be pointed out.

Dr. Sherk first took the floor. He discussed at considerable length the sanitary condition of the city, which he pronounced to be generally good. He also made numerous recommendations for future sanitary measures, which were introduced in a voluminous document drawn up in the form of an ordinance, which was submitted later by Mr. Mayer for the consideration of the Councilmen.

Mr. Mayer followed Dr. Sherk, and endeavored to the best of his ability to impress the City Trustees with the idea that there are some regulations bearing on the matter of the public health that need to be adopted and enforced. This speaker condensed his ideas in the form of an ordinance, which will come before the Council at its regular meeting on Monday. What its fate will be is an open question. It is safe to say, however, that the Councilmen are divided somewhat over the question of the necessity of adopting such stringent measures to cover the ground as the paper calls for.

Briefly summed up, the proposed ordinance is very similar to those governing similar matters in Los Angeles and other large cities. It provides among other things that all property-owners within a certain radius of the business portion of the city be compelled to establish connection with the main sewer system. Those residing outside of the prescribed radius will be allowed to do as they please in the matter of establishing such connection.

Dr. Sherk and Mr. Mayer both recommended that the health officer be authorized to draw out their knowledge on sanitary subjects before they be permitted to ply their trade within the city confines.

In connection with the above it should be remembered that the outfall sewer is completed to the farm, south of Alhambra. Yesterday a committee of the City Trustees and Mr. Sedwick drove down to the farm and instructed the contractor to complete the sewer, to plow up several acres on the southeast corner and have it ready for the reception of sewage without delay. Mr. Johnson will begin work Monday, and inside of a week or ten days the main system will be in operation.

Jack Spencer continues to be a hoodoo. There are several cases of la grippe in town.

W. C. Carter left yesterday on an extended eastern trip. Mr. and Mrs. M. Rosenbaum will spend next week at San Diego.

If you have not registered, better do so at once if you want to vote.

A meeting of Pasadena Tent, Knights of the Macabees, was held yesterday evening. C. S. Smith leaves early next week for Minneapolis, where he will spend the winter. S. Washburn and wife and Mr. and Mrs. E. H. Royce have returned from Catalina.

A. L. Cooper of Los Angeles, who has been visiting relatives in this city, returned here yesterday.

Mrs. D. Hodge is lying seriously ill at her home in North Pasadena. She has been confined to bed about ten days.

Inside of another week, a new 4-inch pipe will be laid from reservoir No. 1, on Mountain street, to Raymond Hill.

C. H. Rhodes went down to San Bernardino yesterday to look after an extensive real estate interests in that vicinity.

Bayard T. Smith and several friends of San Francisco registered at the Carlton yesterday. They are here for a week's stay.

Applications to join the South Sea Island party continue to pour in, and the happy idea will no doubt be carried to a successful issue.

The reception at the Universalist Church last night was well attended, and all present passed a thoroughly delightful social evening.

Mrs. George E. Wright and daughter of South Pasadena spent yesterday in town at the home of Mrs. Wright's parents, Mr. and Mrs. Bonner.

Mr. W. H. Allen, father of H. C. Allen of this city, has purchased a home on North Euclid avenue, and proposes coming here to reside permanently.

The prohibitionists are expected to turn out in large numbers at Williams' Hall tonight to hear Lou Beauchamp, one of their most widely advertised orators, speak.

Pasadena writers again occupy a conspicuous place in the current issue of the Californian. Ex-Gov. Sheldon's articles on political topics are of particular interest.

The Democratic Township Convention will be held at 9 o'clock this afternoon at Williams Bros. office to nominate a justice or two and a constable or two for this district.

Mr. and Mrs. George Herrman and family of San Francisco are at the Arroyo Vista for a short stay. Mr. Herrman figured here conspicuously during the shooting and is glad to notice how nobly Pasadena braced up after the immediate effects of the "pet" had died out.

A petition was being circulated yesterday addressed to W. U. Masters, president of the Board of Trade, asking that he call a meeting at an early date to discuss the advisability of arranging a local exhibit for the Sixth District Agricultural Fair, which opens in Los Angeles next month.

ORANGE COUNTY.

Jesus Molino Acquitted of the Killing of Juan Ruiz.

The Judge Decides that the Deed Was Committed in Self-Defense—Political Notes and Personal.

SANTA ANA. Jesus Molino, accused on the streets of Santa Ana of a crime, but looking a little the worse for the wear of his confinement in the County Jail, and the suffering endured from the effects of his bullet wounds.

The examination was begun again yesterday afternoon, the evidence adduced being in substance, the same as heretofore brought out. A peculiar feature in the examination was that at no time during the examination could any evidence be brought out from those who knew, that would indicate what would lead up to the final death struggle, during which Ruiz received a stab in the temple with a large bowie knife, which resulted in his instant death.

After reviewing the evidence at some length, and frequent reference to the arguments of the attorneys, Judge Marks said that upon the evidence given in the case it was plain to his mind that Jesus Molino was acting in self-defense when he struck the blow that killed Juan Ruiz. He would therefore order that the defendant be discharged.

Molino is not so badly injured as was at first thought. The flesh wound in the leg bothers him but little, but the wound in the shoulder and side, while not considered fatal, is a serious matter. The bullet is still imbedded in his body, where he will probably carry it as long as he lives.

POLITICAL. The new County Democratic Central Committee will meet in the County Jail this morning at 10:30 o'clock. It is expected that all arrangements will be made and a formal announcement given of the endorsement of C. F. Bennett of Tustin, the very Democrats who are reported as officiating in the trade on District Attorney gave out the report that the trade was being made on the sheriff when, up to that time, no reference had been made to that individual.

Although the mornings for the past week have been cloudy and sometimes foggy, the greater portion of the days were warm and sunny, and the crops were advancing rapidly, and owing to their early disappearance failed to retard the progress of fruit drying.

A large number of ranchers throughout the county have been experimenting the past year in the cultivation of the sugar beet. The results have been very satisfactory, and being tested by experts that a percentage of saccharine matter may be determined and the adaptability of the soil for beet culture determined.

SAN BERNARDINO COUNTY.

An Absurd Protest Against the San Bernardino City Schools.

Nothing in the Management to Cause Complaint—What Has Been Accomplished by the Superintendent—General News.

SAN BERNARDINO. Comment has been made for two days upon the action of the Board of City Trustees at the meeting last Tuesday evening, in criticizing the work of the City Board of Education and the teaching force employed.

The schools had been in operation but two days when the board met, and each of the members present, some visitors and the City Attorney took occasion to make some remarks derogatory to the present management of the schools, and the following resolution was adopted: "Resolved, that the board of the City of San Bernardino, in its action of the 19th inst., in criticizing the work of the City Board of Education, and the teaching force employed, and also that the salary paid the City School Superintendent is far in excess of the true value of his services."

One unfamiliar with the circumstances would be led to think that something radically wrong with a school system which would cause the passage of such a resolution. But in view of the facts and circumstances they are not only perfectly correct, but also in the place of the Board of City Trustees, as an official body, has no more relation to or control of the City Board of Education, or the teachers it employs, than does the Prince of Wales to the members of the Hawaiian Islands.

In the next place the average attendance at the schools has been increased by the work and methods of Prof. Alex. E. Fry, the City Superintendent of Schools, so much as to increase the State and county appropriation about \$500.

This, too, in the face of a decrease in the number of school children in the city of seventy, or enough to decrease the appropriation about twice the amount it was increased. Then, again, the members of the City Trustees have personal grievances against the School Board or the teachers. The City Attorney was asked to secure the board of trustees of the Hawaiian Islands. In the next place the average attendance at the schools has been increased by the work and methods of Prof. Alex. E. Fry, the City Superintendent of Schools, so much as to increase the State and county appropriation about \$500.

A Santa Fe Conference and the Depot Matter—Southern Pacific and Cholera—Local and Personal.

The summer season is at an end, as is evidenced by the announcement of the discontinuance of numerous passenger trains which were run for seashore business. Superintendent Beamer of the Southern California announces that on and after Monday, the 26th, the following passenger trains will be discontinued: Trains leaving Los Angeles at 6:25 p. m. for Azusa, Los Angeles at 6:30 a. m. for Santa Monica, Los Angeles at 9 a. m. for Santa Monica and Redondo, Los Angeles at 10:55 a. m. for Santa Monica and Redondo, Inglewood at 3:35 p. m. for Santa Monica, Santa Monica at 9:50 a. m. for Inglewood, Redondo at 3:07 p. m. and Santa Monica at 9:09 p. m. for Los Angeles, Santa Monica at 10 p. m. for Los Angeles, Redondo at 5:30 p. m. and Santa Monica at 3:52 p. m. for Los Angeles. The following trains will thereafter run daily, except Sunday: Leaving Los Angeles at 4:42 p. m. for Santa Ana, Santa Ana at 7:45 a. m. for Los Angeles, Oceanside at 6:10 p. m. for Escondido, Escondido at 8:50 a. m. for Oceanside, Train No. 52, leaving Los Angeles at 5:25 p. m. for Azusa, will run daily instead of daily except Sunday. With the above-noted exceptions the present time table will remain in force.

MR. WADE GOES EAST.
General Manager K. H. Wade, of the Santa Fe's Southern California lines, will today start for Chicago with his private car. His trip is to be one of both pleasure and business. At the Chicago headquarters of the system he will confer with President Manvel and other officials regarding the policy of the road during the coming winter season. It is more than likely that the question of a new passenger depot for Los Angeles will receive attention, too, and be disposed of. It is said that the Santa Fe will inaugurate a vigorous campaign for California passenger business this season and do more than ever before toward giving this State its needed additional population.

ELASTIC RATES FOR CALIFORNIA.
In speaking of the Western Traffic Association and the Southern Pacific's withdrawal from it, Vice-President J. C. Stubbs is quoted as saying to a Chronicle reporter:

"This association will go to pieces, but I do not think a general rate war will result."

Mr. Stubbs stated that it was the intention of the company to reduce the rate on beans from \$1.10 to 50 cents a hundred pounds, and on canned fruits, vegetables and other non-perishable products of California a cut of 25 per cent. a hundred pounds would be made. Another reason of the withdrawal was the refusal of permission to make a cut of 20 to 30 per cent. on the rates of high-priced goods, such as clothing and woollens, from New York to San Francisco. The Southern Pacific wanted to lower the rate on west-bound traffic to meet a cut proposed by the Canadian Pacific.

"I think another association will be formed," said Mr. Stubbs, "for, you know, there is an axiom that 'where there is competition there will be combination.' But California may rest assured that the Southern Pacific will go into no combination that will not permit us to give elastic rates to California products."

SCHAF REAP.
Some more Chicago lawyers and capitalists arrived in Los Angeles yesterday, having come here on business connected with the effort to reorganize the cable railroad company in the interest of the Eastern security holders.

President M. H. Sherman of the Consolidated Electric Company, the busiest man in Los Angeles, came down from San Francisco yesterday and will return to that city again today. Gen. Sherman says that in the deal between his company and the cable road the electric people are all right.

The work of laying a third rail on Second street to accommodate the Vernon line of broad-gauge cars, which has been alluded to heretofore, will soon be completed, after which the cars will run by that route instead of the present one, where the track is in such an execrable condition that it cannot be maintained.

If cholera should come to California it won't be on account of negligence on

the part of the Southern Pacific Company. Officials of the road are zealous in assisting the State Board of Health in observing every possible precaution. The party of seventeen immigrants who had been quarantined a day at Ogilby came in on train No. 20 last night. The passengers were all well and clean.

GRAND NAVAL DISPLAY.

An Attractive Feature of the Cabrillo Celebration at San Diego.

One of the most attractive features of the Cabrillo celebration at San Diego will be the grand naval display in the bay. At least three of the cruisers of the modern navy, the San Francisco, Charleston and Baltimore, will be open to visitors, and when it is considered that but comparatively few people in this section have ever seen a fleet of this size, this attraction alone should draw a large crowd. In addition to these magnificent examples of modern ships of war, the Democrita of the Mexican navy will also be on hand, besides a large number of sailing vessels, yachts, etc., which will go to make up a fine marine picture. An opportunity will also be given for comparing the ancient style of marine architecture with the present, as an exact reproduction of the ship in which Cabrillo sailed into the bay has been prepared, and the scene of the original landing will be reproduced, Indians and all.

The grand banquet at the Coronado also promises to be a notable event. Admiral Gherardi and other prominent naval officers will be present, together with well-known citizens from all portions of the State.

The people of San Diego are making every preparation for the accommodation and entertainment of their guests, and will see that all who come are provided for. Very liberal rates have been made by the railroads, in order to allow every age to witness the celebration. But one fare for the round trip will be charged from all points on the Southern California Railway, from September 24 to October 25, inclusive, tickets good for return up to and including October 3.

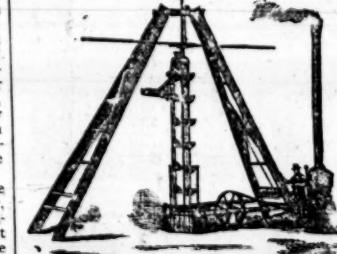

SICK

Head-Aches.

Sick-headaches are the outward indications of derangements of the stomach and bowels. As Joy's Vegetable Sarsaparilla is the only bowel regulating preparation of Sarsaparilla, it is the only proper Sarsaparilla in sick-headaches. It is not only appropriate, it is an absolute cure. After a course of it an occasional dose at intervals will forever prevent return.

Wonderful :: Cures

DR. WONG,

713 South Main Street, - - - Los Angeles, California.

醫良世壽 妙藥精脉

"Skillful cure increases longevity to the world."

"Ingeniously locating diseases through the pulse and excellent remedies are great blessings to the world."

The above are two of the similar many REWARDS OF MERIT or DIPLOMAS OF PROFES-

SION SKILL which have from time to time been awarded to the CELEBRATED CHINESE PHYSICIAN, DR. WONG, for his superior medical abilities and curative powers.

It has been the custom among the Chinese people when one becomes sick and when repeated attempts to cure him have failed, and he is perhaps given up to die, if after having been taken to an eminent physician, he is cured of his disease, the cured, too, in addition to the regular fee for professional services rendered, makes the physician a present as a token of gratitude for his restoration to health and the prolongation of his life. This present consists usually of a broad plank, presenting much the appearance of a sign-board, filled with characters entirely meaningless to the average English scholar, but full of meaning to the successful physician and his friends. It is a motto which highly compliments the physician for his great skill in effecting a cure of the disease which once afflicted the donor.

It is not an uncommon thing to see a great number of these COMPLIMENTARY DIPLOMAS adorning the office walls of Chinese physicians in their native country, and indeed a number of the most successful ones in this country are the happy possessors of a few of these high tokens of very superior medical ability.
